

Strip & Seal Floor Restoration Services

Enhancing Safety, Durability & Presentation across the Resource Sector

Why Choose Pindari for Strip & Seal Services?

Mining environments demand tough, long-lasting flooring solutions that withstand heavy foot traffic, equipment movement, and exposure to dust and chemicals. Pindari specialises in professional Strip & Seal services, ensuring your floors are not only clean but also protected against wear and tear, enhancing safety and site presentation.

Benefits of Pindari's Strip & Seal Service:

- **Enhanced Safety** Slip-resistant surfaces reduce the risk of workplace accidents.
- **Increased Durability** Protects floors from heavy traffic, chemicals, and dust accumulation.
- **Improved Presentation** A well-maintained site reflects professionalism and improves morale.
- **Reduced Maintenance Costs** Durable floors mean fewer repairs and replacements.
- **Fast Turnaround** Minimised disruption to operations with efficient service delivery.

Our Process

1. Surface Preparation

Removing built-up grime, old coatings, and contaminants.

2. Deep Cleaning

Industrial-strength cleaning to eliminate dirt, stains, and bacteria.

3. Stripping

Complete removal of worn-out sealant layers.

4. Sealing

Application of high-grade, heavy-duty sealants for durability and resistance.

5. Polishing & Finishing

A protective, non-slip finish that enhances appearance and longevity.

Typical Applications:

- Workshops & Administration Buildings
- Site Offices & Crib Rooms
- High-Traffic Walkways
- Amenities & Change Rooms
- Substations & Communication Rooms
- Wet & Dry Mess Area
- Sealing of New Vinyl Installations
